Question: 1-1 of 70 Page: 1 of 70

1 A client and her partner ask the nurse for information about permanent contraception. Which of the following statements should the nurse include in the counseling?

- "A woman should use contraception for 1 to 2 months after a tubal ligation."
- "Most sterilization procedures are considered irreversible."
- "A man is usually sterile immediately after a vasectomy."
- "The menstrual cycle is shorter after a tubal ligation."
